

Employee Benefits at the Housing Authority of Winston-Salem

At the Housing Authority of Winston Salem, we believe that our people are the reason behind our successes. We truly value our employees as part of our professional family! Our goal is to offer the very best health care possible for our employees and their dependents. To that end, we have developed a comprehensive employee benefit package designed to support the health and wellness needs of our team.

We offer our employees a health insurance plan which includes a wellness benefit and a deductible reimbursement program, dental coverage, a vision plan, a flexible spending account, life insurance, disability coverage and supplemental plan options. Our employees also participate in the Local Government Retirement System.

In addition, we offer the option of participation in aspects of our health and dental plans for eligible retirees.

HAWS employees are welcome to contact our Human Resources office for details on our benefits and how they work.
